4 Reasons Hemp, LLC will be hosting an industrial hemp growers meeting for anyone interested in growing Industrial Hemp for grain and manufacturing practices. Industrial hemp is used in numerous industries such as food, textiles, construction, paper and bio-plastics.

We are looking for farmers who are interested in learning more about industrial hemp as an alternative rotation crop that can produce increased revenues. We have partnered with industry leader, South Bend Industrial Hemp from Great Bend Kansas. SBIH will be presenting information on contract acres, how to grow, what we need from you and what you can expect from us, budgets and how the contracts work.

We will also talk about the first processing facility we will be building in Cecil County in 2022
